Bracket Matrix

The following document is a guide to assist with product selection to ensure that you are able to select the correct product and code when fitting a system with personnel winches and/or SRL devices.

Please note that the part codes in this document are given in relation to the brackets supplied by REID lifting and not the devices which they support. If you require more information about the devices themselves, please contact us at enquiries@reidlifting.com.

More information and installations guides for each device and REID product can be found online at reidlifting.com.
