BRACKET MATRIX

reidlifting.com

Bracket Matrix

The following document is a guide to assist with product selection to ensure that you are able to select the correct product and code when fitting a system with personnel winches and/or SRL devices.

Please note that the part codes in this document are given in relation to the brackets supplied by REID lifting and not the devices which they support. If you require more information about the devices themselves, please contact us at enquiries@reidlifting.com.

More information and installations guides for each device and REID product can be found online at reidlifting.com.

WINCH-READY SET UP

The brackets on this page are for trap plate attachment set-ups with a Porta Gantry.

All gantries must conform with one of the following set-ups when being used with any winch or SRL device

- → **Newly purchased** Gantry systems will require Winch ready A-Frames
- → **Upgrading existing** systems will need a Winch conversion kit per A-Frame.

Winch-Ready Attachments	
Winch ready A-Frame	SP100
Winch ready conversion kit	US-RAPG000077
PG Single Sheave carrier	US-PGTU01100
PG Double sheave carrier	US-PGTT01100

Note: All sheave carriers are rated 550lb WLL for personnel lifting applications.
